

### OHS Gender Neutral Washroom

OHS is proud to finally have completed the upgrades to a set of main washrooms in the building. Please see some pictures of the completed project including our recently added blue notes to the area. We are happy to report this has provided a safe and accessible area for all students in the building who need to use a washroom for its intended purpose. We thank district for their support in helping OHS with this great upgrade for Oromocto High School.
